 2. At the nearest face-off spot where the pass or shot originated when the puck was passed or shot over the blue line by an attacking player NEW
 3. At the end zone face-off spot in the defending zone of the offending team if, in the opinion of the Linesman or Referee, a player has intentionally caused an offside
 4. At the end zone face-off spot in the defending zone of the offending team, if the puck was passed or shot by the attacking player from his defending zone.
- d) A player actually propelling and in control of the puck, who crosses the line ahead of the puck, shall not be considered offside.
- e) If a defending player carries or passes the puck into his defending zone while a player of the attacking team is in an offside position, no offside shall be called.

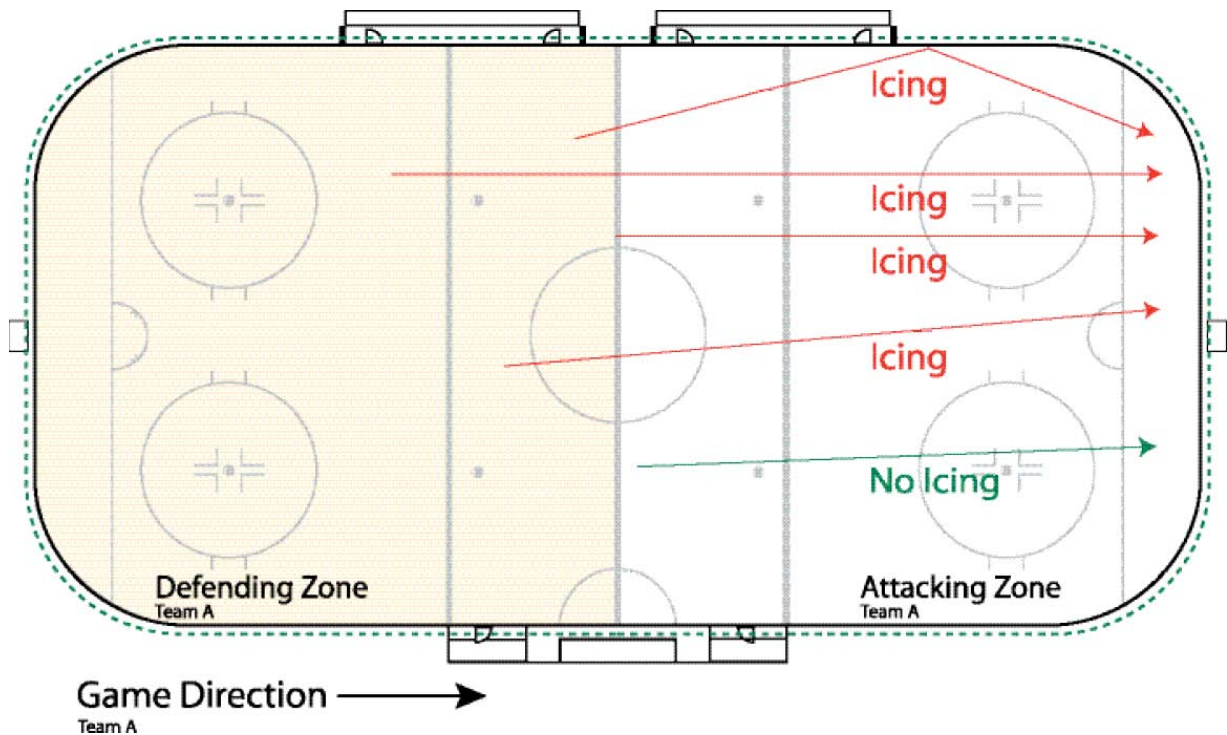

904 – Delayed Offside Procedure

- a) An attacking player precedes the puck into the attacking zone, but a defending player is able to play the puck, the Linesman shall raise his arm to signal a **'Delayed Offside'**, except if the puck has been shot on goal causing the goalkeeper to play the puck.
- b) The Linesman shall drop his arm to nullify the offside violation and allow the play to continue if:
 1. The defending team either passes or carries the puck into the neutral zone
 2. Or, all attacking players immediately clear the attacking zone by making blade contact with the blue line.
- c) The attacking zone shall be completely clear of attacking players before the delayed offside can be nullified with the puck still in the attacking zone.
- d) 'Immediately' means that the attacking players must not touch the puck, or attempt to gain possession of a loose puck, or force the defending puck carrier further back in the zone.
- e) In this second case, when the Linesman drops his arm, any attacking player may re-enter his attacking zone.

905 – Icing the Puck

- a) For the purpose of this rule, the centre red line divides the ice rink into two halves. The point of last contact with the puck by the team in possession shall be used to determine whether or not icing has occurred.

- b) Should a player of a team equal or superior in numerical strength shoot, bat or deflect the puck from his own half of the ice beyond the goal line of the opposing team, play shall be stopped and icing shall be called.
- c) A face-off shall take place at the end zone face-off spot of the offending team nearest to where they last touched the puck.
- d) No icing will be called:
1. If the puck enters the goal - the goal is allowed
 2. If the offending team is '**Short Handed**' at the instant the puck is shot
 3. If the puck touches any part of an opposing player, including the goalkeeper, before crossing the goal line
 4. If the puck is iced directly from a player participating in a face-off
 5. If, in the opinion of the Linesman, any player from the opposing team, except the goal keeper, is able to play the puck before it crosses the goal line
 6. Once the goalkeeper leaves his goal crease or when the goalkeeper is outside his goal crease during icing situation and moves in the direction of the puck.
- e) Following a stoppage of play for an icing infraction, the offending team is prohibited from making any player change until play has resumed. NEW
- f) A team that is in violation of this rule shall not be permitted to make any player substitutions prior to the ensuing face-off, or should the offending team elect to utilize their team time-out at this stoppage of play, they are still not permitted to make any player substitutions. However, a team shall be permitted to make a player substitution to replace a goalkeeper who had been substituted for an extra player, to replace an injured player or goalkeeper, or when a penalty has been assessed that affects their on-ice strength. The determination of players on ice will be made when the puck leaves the offending player's stick. NEW
- g) If a team persists in changing the players after they have iced the puck, and have been warned by the Referee, the Referee shall assess to the offending team a: NEW
- Bench Minor penalty (2')

- A. If the Linesmen have made a mistake in calling an icing, the puck shall be faced-off on the centre ice face-off spot.
- B. The purpose of this section is to enforce continuous action and both Referee and Linesmen shall interpret and apply the rule to produce this result.
- C. **'Short Handed'** means that due to a penalty(s), the team shall be below the numerical strength of its opponents on the ice.

906 – Definition of a Goal

A goal shall be allowed:

1. When the puck has been put between the goal posts below the crossbar and entirely across the goal line by the stick of a player of the attacking team

5. If the puck should become loose in the goal crease and then put into in the goal by the stick of the attacking player

6. When the puck deflects directly into the goal off the sled of an attacking or defending player
7. If an attacking player is in the goal crease at the moment the puck crosses the goal line and in no way affects the goalkeeper's ability to make a save, with the exception of the cases described in **Rule 907**
8. When the puck deflects directly into the goal off the goalkeeper's face mask.

All such calls shall be made by the Referee and he/she may consult with the Linesmen and /or the goal judge.

907 – Disallowing a Goal

9. Where a goalkeeper has been pushed into the goal together with the puck after making a stop. If applicable, appropriate penalties shall be assessed.

b) Where the puck is under the player who is in or around the goal crease (deliberately or otherwise), a goal cannot be scored by pushing this player together with the puck into the goal. If applicable, the appropriate penalties shall be assessed, including the Penalty Shot (see **Rule 1046**).

1. No goal shall be disallowed after the face-off immediately following the scoring of that goal.
2. The goal crease is defined as a volume, extending from the crease area on the ice up to **1.27m** above the ice surface.
3. **'Contact'** whether incidental or otherwise, between a goalkeeper and an attacking player may be with the stick or any part of the body or sledge.

912 – Illegal Puck

If, at any time, while play is in progress, a puck other than the one legally in play shall appear on the playing surface, the play shall not be stopped until the play then in progress is completed by change of possession.

914 – Stopping/ Passing the Puck with Hands

- c) If a teammate of such a player obtains possession of the puck in his Defending Zone, the Referee shall not stop the play provided the hand pass is completed before the player and the puck leave the zone. However, when the puck is passed with the hand from a player in the Neutral Zone to a teammate in his Defending Zone, the Referee shall stop the play with the face-off at the point of stoppage.
- d) If a teammate of such a player obtains possession of the puck in his Attacking Zone, the Referee shall stop the play with the face-off at the Neutral Zone face-off spot outside the Attacking Zone unless the puck was batted from the offending team's Defending Zone or anywhere in the Neutral Zone, in which case the face-off will take place from where the puck was batted.
- e) A goal shall be disallowed if the puck was batted by an attacking player even if deflected into the goal by any player, his stick, sled, goalkeeper or official into the goal.

915 – High Sticking the Puck

- a) Stopping or batting the puck with the stick above the height of the top of the head is prohibited, and the play will be stopped, unless: **NEW**

1001 – Minor Penalty

For a Minor penalty, any player, other than the goalkeeper, will be ruled off the ice for **(2)** two minutes and no substitution shall be permitted.

1002 – Bench Minor Penalty

- a) For a Bench Minor penalty, any player who was on the ice at the time of the infraction, other than the goalkeeper of the penalized team, designated by the Manager or the Coach through the Captain, will be ruled off the ice for **(2)** two minutes and no substitution shall be permitted. NEW
- b) If, while a team is **'Short Handed'** because of one or more Minor or Bench Minor penalties, the opposing team scores a goal, the first of such penalties shall automatically terminate unless such penalty was assessed at the same time as an opposing player's penalty which originally caused both teams to play one player short, in which case the next Minor or Bench Minor penalty assessed to the scored upon team shall terminate.
1. The designated player shall take his place on the penalty bench promptly and serve the penalty as if it was a Minor penalty imposed to him.
 2. **'Short Handed'** means that, due to a penalty(s), the team must be below the numerical strength of its opponents on the ice at the time the goal is scored.
 3. This rule does not apply when a goal is scored on a Penalty Shot.

1003 – Major Penalty

For a Major penalty, any player, including the goalkeeper, will be ruled off the ice **for the balance of the game** (i.e. will in addition receive a **Game Misconduct penalty**) and substitution shall be permitted after **(5)** five minutes.

When a player is assessed a Major and a Minor penalty at the same time, the Major penalty shall be served first. This applies when both penalties are imposed on the same player (see **Rule 1012**).

1004 – Misconduct Penalty

- a) For his first Misconduct penalty, any player, other than the goalkeeper, shall be ruled off the ice for **(10)** ten minutes and immediate substitution shall be permitted. The player whose Misconduct penalty has expired shall stay on the penalty bench until the next stoppage of play.
- b) For his second Misconduct penalty in one game, any player, including the goalkeeper, will automatically be ruled off the ice for **the balance of the game** (i.e. will in addition receive a **Game Misconduct penalty**) and immediate substitution shall be permitted.

When a player is assessed a Minor or Major penalty and a Misconduct penalty at the same time, the penalized team shall immediately put a

substitute player on the penalty bench to serve the Minor or Major penalty without change.

1005 – Game Misconduct Penalty

For a Game Misconduct penalty, any player, including the goalkeeper or team official, shall be ruled off the ice and ordered to the dressing room **for the balance of the game** and immediate substitution for the player or the goalkeeper shall be permitted.

- A Game Misconduct penalty does not incur automatic suspension, except for that game, but the Proper Authorities shall have the power to suspend the player or the team official from participating in further games.
- In championships and tournament games, any player or team official assessed his second Game Misconduct Penalty shall be automatically suspended for his team's next championship or tournament game.

1006 – Match Penalty

For a Match penalty, any player, including the goalkeeper, shall be ruled off the ice and ordered to the dressing room for the balance of the game and substitution shall be permitted after five minutes.

- A player or team official incurring a Match penalty shall be awarded an automatic further suspension, which means that he shall be suspended for the next IPC sanctioned game as a minimum and his case shall be dealt with by the Proper Authorities.

1007 – Penalty Shot

- a) Five conditions are required to award a Penalty Shot to a player being fouled from behind:
1. The infraction shall take place when the puck is outside of the player's defending zone (completely across the blue line)
 2. The attacking player shall be in possession and have '**Control of the Puck**'
 3. The infraction shall have been committed '**From Behind**'
 4. The attacking player in possession and control of the puck shall have been denied a reasonable scoring opportunity
 5. The player in possession and control of the puck shall have had no opposing players to pass other than the goalkeeper.
- b) If the infraction involves a Minor penalty, the Penalty Shot shall be taken and the minor penalty will not be assessed or served, regardless of whether the Penalty Shot results in a goal or not.
- c) A penalty shot can be awarded in those situations where a goalkeeper fouls a player on a break-away situation, regardless if the infraction takes place from behind or not.

NEW

- d) If the infraction involves any other penalty, the Penalty Shot shall be awarded and the penalty will also be assessed and served regardless of whether the Penalty Shot results in a goal or not.
1. **'Control of the Puck'** is the act of propelling the puck with the stick. If the puck is touched by another player or his equipment while it is being propelled or hits the goal or goes free, the player shall no longer be considered to be in control of the puck.
 2. If, when the opposing goalkeeper has been removed from the ice and a player in **'Control of the Puck'** outside his own Defending Zone, with no opponent to pass between him and the opposing goal net (**see also Rule 1027**) is fouled from behind, the Referee shall award a Goal to the non-offending team.
 3. **'From Behind'** is determined by the position of the players' body and not by the position of the player's sled.

1008 – Penalty Shot Procedure

- a) The Coach or the Captain of the non-offending team selects and reports to the Referee the number of any non-penalized player who shall take the shot.
- b) The Referee shall cause to be announced the name and number of the player taking the Penalty Shot, who cannot be a player serving a penalty or have been assessed a delayed penalty.
- c) The players of both teams shall withdraw to the sides of the rink and behind the red line.
- d) The Referee shall place the puck on the center spot.
- e) Only a goalkeeper may defend against the Penalty Shot.
- f) The goalkeeper shall stay in his crease until the player has touched the puck.
- g) The player shall, on instruction of the Referee, play the puck and proceed towards his opponent's goal line and attempt to score on the goalkeeper.
- h) If the player misses the puck and does not touch the puck on the way past it as it sits on the centre Face-off dot, the player can return and continue with the Penalty Shot.
- i) Once the puck is shot the play shall be considered complete, and no goal can be scored by a second shot of any kind.
- j) If a goal is scored, the face-off will take place at center ice.
- k) If no goal is scored, the face-off will take place at either of the end zone face-off spots in which the Penalty Shot has been attempted.

Notes:

1. The time required for taking a Penalty Shot will not be recorded in the actual playing time in any period.
2. If the foul upon which the Penalty Shot is based occurred during actual playing time, the Penalty Shot will be awarded and taken immediately in the usual manner, notwithstanding any delay occasioned by a slow whistle by the Referee. In this case, the play shall be permitted to be completed, which delay results in the expiry of the regular playing time in any period.
3. If the goalkeeper leaves his crease before the player has touched the puck, or commits any foul, the Referee shall raise his arm but allow the shot to be completed. If the shot fails, he shall permit the Penalty Shot to be taken again. If the goalkeeper leaves the goal crease too early, the Referee shall:
 - Issue a Warning the first time and a new Penalty Shot
 - Issue a Misconduct penalty the second time and a new Penalty Shot
 - Award a Goal the third time.
4. The goalkeeper shall attempt to block the shot in any manner, except by throwing his stick or any other object, in which case a goal shall be awarded.
5. When the Penalty Shot is taken, if any player of the opposing team interferes or distracts the player taking the shot, and in the opinion of the Referee because of such action the shot fails, the Referee shall allow a second Penalty Shot and assess a Misconduct penalty on the offending player.

1009 – Supplementary Discipline

- a) In addition to the suspension imposed under these rules, the Proper Authorities may, at any time after the conclusion of the game, investigate any incident and may assess additional suspensions for any offense committed on or off the ice at any time before during and after the game, whether or not such offenses have been penalized by the Referee.

1010 – Goalkeeper Penalty Procedure

A goalkeeper never goes to the penalty bench.

- a) For Minor or first Misconduct penalties assessed to the goalkeeper:
 1. The goalkeeper continues to play
 2. His penalty shall be served by another player of his team who was on the ice at the time the play was stopped to assess the penalty for the infraction and was designated by the Manager or Coach through the Captain.

- b) For Major, Game Misconduct or Match penalties, the goalkeeper shall be ruled off the ice for the balance of the game.

He shall be replaced by the substitute goalkeeper, if available, or otherwise by a member of his team, who shall be permitted **10 minutes** to dress in the goalkeeper's full equipment.

- c) In the case of Major or Match penalties, the **5 minute** penalty shall be served by another player of his team who was on the ice at the time the play was stopped to assess the penalty for the infraction as was designated by the Manager or Coach through the Captain.
1. All penalties imposed to a goalkeeper, regardless of who serves the penalty, shall be charged in the records against the goalkeeper
 2. Any additional penalties which were assessed to the goalkeeper at the same stoppage of play shall apply and shall be served by another player of his team who was on the ice at the time the play was stopped to assess the penalty for the infraction.

1011 – Coincidental Penalties

- a) When an equal number of identical penalties (Minor, Major or Match) are assessed to both teams at the same stoppage of play, such penalties shall be known as: **Coincidental Penalties**.
- b) When such penalties are assessed, immediate substitutions shall be made for those penalties and they shall not be taken into account for the purpose of delayed penalties.
- c) In the case where the penalized players remain in the game, they shall take their place on the penalty bench and shall not leave until the first stoppage of play following the expiry of their respective penalties.
- d) The above rule will not apply when both teams are at Full Strength on the ice; no Substitution shall be permitted if only one Minor penalty is assessed to one player on each team at the same stoppage of play.
- In the application of this rule, Minor and Bench Minor penalties are considered as identical.

1012 – Delayed Penalty

This rule applies only when Minor, Bench Minor, Major or Match penalties are involved.

- a) If a third player of any team is assessed a penalty while two players of his team are serving penalties, he shall leave the ice but his penalty time shall not commence until the penalty time of one of the other players has elapsed.
- b) The player shall proceed at once to the penalty bench, but may be replaced on the ice by a substitute.

- c) When any team has three or more players serving penalties at the same time, and because of the delayed penalty rule a substitute for the third offender is on the ice, none of the three penalized players may return to the ice until play has been stopped, unless by reason of the expiration of his penalty the penalized team is allowed to have more than four players including the goalkeeper on the ice, in which case the penalized players will be permitted to return in the order of their penalties.
1. If the penalties of two players of the same team expire at the same time, the Captain of the team will designate to the Referee which of the players shall return to the ice first, and the Referee shall instruct the Scorekeeper accordingly.
 2. When a Major and a Minor penalty are imposed at the same time on two or more players of the same team, the Scorekeeper shall record the Minor penalty as being the first of such penalties.

This also applies when the two penalties are imposed on different players (see **Rule 1001**).

1013 – Calling of Penalties

Should an infraction of the rules be committed which would call for a penalty:

- a) If the team of the offending player is in possession of the puck, the Referee shall immediately blow the whistle and assesses the penalty. The face-off shall take place where the play was stopped, unless it was stopped in the offending team's attacking zone, in which case the face-off shall take place at the closest neutral zone face-off spot.
- b) If the team of the offending player is **NOT** in possession of the puck, the Referee shall raise his arm, signifying the calling of a penalty and, upon **'Completion of the Play'** by the team in possession, shall blow the whistle and assess the penalty.
- c) If, after the Referee has raised his arm signifying the calling of the penalty, a goal is scored in any manner against the non-offending team as a result of an action of that team, the goal shall be allowed and a penalty shall be imposed in a normal manner.
- d) If, after the Referee has raised his arm signifying the calling of the penalty, a goal is scored by the non-offending team, the goal shall be allowed and the first Minor penalty shall **NOT** be assessed. All other penalties shall be assessed. If the offending team is already shorthanded, the first Minor or Bench Minor penalty being served shall be terminated and all penalties being signaled shall be assessed in the normal manner. NEW
- e) If after the Referee has signaled a penalty, but before the whistle has been blown, the puck enters the goal of the non-offending team as the direct result of the action of the player of the offending team, the goal shall not be allowed and the penalty signaled shall be imposed.
- f) The face-off shall take place in the neutral zone near the blue line of the team shooting the puck where play was stopped unless, during the period

of a delayed whistle due to a penalty by a player of the team not in possession, the side in possession ices the puck or shoots the puck from their defensive zone so that it goes out of bounds or is un-playable.

- **'Completion of the Play'** by the team in possession means that the puck shall have come into the possession of, and have been controlled or intentionally directed by, a player or goalkeeper of the opposing team, or has been held.

No rebound off of any player of the opposing team, or off the goal or boards, will lead to completion of the play.

Fouls against Players

- Or
- **Match penalty (MP)**
- b) A player who injures his opponent as a result of charging shall be assessed, at the discretion of the referee, a:
- **Major penalty + Automatic Game Misconduct penalty (5'+GM)**
- Or
- **Match penalty (MP)**
1. **'Charging'** shall mean the action of a player who, as a result of distance traveled violently checks an opponent. Charging may be the result of a check into the boards, into the goal frame, or on open ice
 2. A player who makes physical contact with an opponent after the whistle has been blown, and if, in the opinion of the Referee, the player had sufficient time after the whistle to avoid such contact, shall be assessed, at the discretion of the Referee, a penalty for **'Charging'**
 3. A goalkeeper is not 'Fair Game' just because he is outside of the goal crease area. A penalty for 'Interference' or 'Charging' shall be called in every case where an opposing player makes unnecessary contact with a goalkeeper.

Note: The position of the puck or puck carrier at the moment when a stick or any part of it, or any object is thrown, shot or directed (**with any part of the body**) by an opposing player in the direction of the puck or puck carrier is the determining factor whether to assess a Minor penalty or award a Penalty Shot. The penalty shall be assessed in every case where an attacking player makes unnecessary contact with the goalkeeper (**see Rule 1016**). Incidental contact shall be permitted when the goalkeeper is in the act of playing the puck outside his goal crease provided the attacking player made a reasonable effort to avoid unnecessary contact.

ANNEX 1: ILLUSTRATION OF GOAL FRAME

ANNEX 2: MAJOR RULE DIFFERENCES

Overview

The purpose of this document is to introduce existing able-bodied hockey officials to the sport of sledge hockey. Although sledge hockey is basically the same game as able-bodied hockey, there are obvious differences and some subtle differences in the rules and in the way the game is played and officiated.

The IPC (International Paralympic Committee) Sledge Hockey Rule Book was derived from the IIHF 2006-2010 Rule Book with adaptations made for the sport of sledge hockey. Officials who work IIHF should have an easier time adapting to this Rule book than North American officials.

Outlined in this document are the major rule differences, positioning differences, and other miscellaneous differences.

A 2.1 – Rule Differences

For obvious reasons, the tripping and kneeling penalties have been removed from the rulebook.

Rule 1031 – Teeing: was added to the rule book as this could not happen in able-bodied hockey. Teeing is defined as ‘a player making contact with an opponent with any part of the front radius of his sled straight into his opponent’. This does not include all occurrences of contact being made, rather when contact is made at, or almost at right angles of the sleds with significant impact. This is a safety issue for the players as serious injuries can occur.

Rule 1025 – Holding an Opponent: is probably the most common penalty called in sledge hockey. Holding an opponent for even a moment can cause this player to lose any momentum he may have. Holding can occur on the arms, on the sled, anywhere on the body, on the head, and even on the opponent’s stick.

Rule 1015 – Butt-Ending: can be extremely dangerous as there are sharp ‘picks’ at the end of a player’s sticks. These ‘picks’ are used by the players to propel themselves along the ice but are sometimes used as a ‘weapon’ Officials should be very alert to a player’s use of their sticks.

Rule 1046 (b) – Falling on the Puck by a Player: Often on face-offs, a player will intentionally fall on the puck in order to protect the puck from the opposing centre before passing the puck back to a team mate. This should be strictly enforced with the appropriate minor penalty.

Rule 903 – Offside: The determining factors for an offside are 1; the position of the puck and 2; the position of the player’s blades. The player must have the blades under his sled making contact with the blue line at the moment the puck crosses the line.

Rule 1007 – Penalty Shot: This rule is the same as the IIHF rule book with the exception of Note 3 which is the definition of ‘From Behind’. ‘From Behind’ is

determined by the position of the player's body and not by the position of the player's sled. Even if the player's sled has come somewhat alongside his opponent's sled, if his body is still behind his opponent's, then the penalty shot shall be awarded.

Rule 705 (b) - Change of Players Procedure During Stoppage of Play: Because players are on sleds, 10 seconds is given to the visiting team and the home team to make their player changes instead of the normal 5 seconds. The linesman conducting the face-off will still allow the normal 5 seconds before dropping the puck.

Rule 902 (b) - Procedure for Conducting Face-Off: 'The players shall be positioned squarely facing the sideboards of the rink, with their sleds outside of the face-off spot, and with the blade of their stick on the ice on the white part of the face-off spot'. The centre men may face the same way as their opponent or in the opposite direction. After dropping the puck for a face-off, be very aware of the wingers behind you before attempting to back out.

A 2.2 - Positioning Procedures and Judgment

Staying on top of the Play: Referees should not hesitate to cross behind the goal net to get closer to the play. When players are battling for a loose puck at close quarters, there are a number of things that can happen including holding (this could be holding the opponent or the opponent's sled) and jabbing an opponent with the pick end of the stick. Because the players are low to the ice surface while sitting in their sleds, hands and sticks can be hidden behind their opponents so the referee needs to be right on top of the play. This also applies to when the play progresses down the ice. For example, if you see a breakout pass from the end zone in your corner to a breaking player on the other side of the ice, feel free to cross over through the neutral zone to stay on top of the play.

Moving out from the boards: The referee has to find open ice during a breakout and when play is moving through the neutral zone. Players on sleds take up more room than able-bodied players so the referee should not be afraid to move away from the boards and move closer to the center in order to get out of the zone.

Line Change Procedure: When conducting a line change procedure in the end zones, the referee should move out from the end zone corners and make themselves seen by the benches to see if anyone is coming.

Face-Offs: Officials should conduct the face-off by holding the puck out over the face-off circle at the players' eye level. We do not want the players having to look up to anticipate when the official is going to drop the puck.

Body Checks: When a player body checks an opponent as they pass each other in opposite directions, the body check must be delivered with the shoulder. Often, a player will put out an elbow or a forearm to deliver the check and this should be penalized as this has a 'clothesline' effect on the player who was checked.

Judgment on Icing's: Linesmen must use a different sense of judgment when washing out an icing because he/she feels that a defending player (other than the goalkeeper) is able to play the puck before it crosses the goal line. A player on a sled is not able to move as quickly as an able-bodied player so use the appropriate judgment.

Skating Backwards: It is imperative that you are aware of players behind you before you proceed to back up. If you run into a player on a sled while skating backwards you will end up on top of the player and hurting that player and/or yourself.

Linesmen standing outside the blue line: Linesmen need to be aware that while play is in the attacking zone, defensemen sometimes curl back out into the neutral zone and come back into the attacking zone along the boards. Linesmen will have to give the defenseman room along the boards by either moving back further into the neutral zone or moving out from the boards to give him room.

Never, ever jump! Officials should never jump and they should take the hit and do everything possible not to fall on top of the players. Officials should never jump up on the boards, as the skate blades would then be at the head level of the players.

Team benches on the ice: When a game is played at an arena that does not support sleds on the team bench, the players are to sit along the boards in front of the team bench, between the blue line and the centre red line. Penalized players are to sit on the ice in the referee's crease. If a puck is directed toward the team or penalty benches, the players are supposed to direct the puck as if it 'bounced' off the boards. If the puck enters the team bench or if a player has directed the puck in an unfair manner, then blow the play right away. This is a safety issue, as there shouldn't be players fighting for a loose puck among the players on the 'bench'.
